Past performance

Mission Support and Test Services (MSTS) — Enterprise AI Knowledge Platform

SUBCONTRACTOR TO LINK TECHNOLOGIES

Architecting and delivering a secure, on-premises RAG platform for enterprise knowledge retrieval, self-hosted inference, and automated evaluation.

Lockheed Martin Space — Enterprise AI Search & AI Hub

Architected enterprise RAG, search, and agentic AI platforms supporting 1M+ records, secure self-hosted AI, and deployment in sensitive and air-gapped environments.

Lockheed Martin Space — Mustang / LM400 Space Bus

Developed and verified Class B flight software for the LM400 space bus, including spacecraft power diagnostics and automated load-shedding capabilities.

Pratt & Whitney — Enterprise AI & Engineering Knowledge

SUBCONTRACTOR TO INNOVIEN SOLUTIONS

Architecting enterprise RAG and AI capabilities that transform complex aerospace engineering documentation into trusted, searchable knowledge for engineering and business workflows.

U.S. Army — Engineering, Communications & Cyber Operations

ENGINEER OFFICER | SIGNAL OFFICER | CYBER WARFARE OFFICER

Led engineering, secure communications, and cybersecurity capabilities supporting mission-critical Army operations and space/missile-defense environments.
